

Home contents insurance

Replacing the contents of your home would be an expensive process but it is difficult to know just how much cover is right for you.

Our home contents insurance form will help you decide the level of cover you could need (or find out if you have enough already!). To make it easier for you, we have broken the form down into sections covering the various rooms in your home, your garden and any other possessions.

Simply work your way through the house and put your estimate of what it would cost to replace each item into the boxes below. Complete the form as far as possible and then add all the boxes up to get your overall cover figure.

Once you have got your overall cover figure why not use the total to get a quote for NatWest Home Insurance. Visit the website - www.natwest.com/homeinsurance or call **0800 051 5450** Monday to Friday 8am-8pm or Saturday 9am-4pm (excluding public holidays).
