

Students – important information

This document explains some additional features of your Student account that apply if you opened your account from 5th August 2018. This document forms part of the agreement between us and should be read together with Your Current Account Terms.

1 £10 monthly account fee for International Students

International Students will be charged a £10 monthly account fee. The fee will be taken from your account 21 days after the end of your charging period (or the next business day if this is a Saturday, Sunday or bank holiday).

International Students are students who opened their Student account when they had been living in the UK for less than three years.

2 Benefits

You can choose one of the additional benefits listed on natwest.com. To be eligible for the benefit you must register for online banking and choose to receive electronic statements on your Student account.

3 What happens after you graduate?

After you graduate:

- if you're an International Student, we'll change your Student account to a Select or Foundation account; or
- if you're not an International Student, we'll change your Student account to a Graduate account.

Your account will be changed during the calendar year after you graduate and we'll always give you at least 60 days' notice before we do this.

These terms will be reflected in Your Current Account Terms from 1st October 2018.
