| | Interest is paid on a tiered basis from the date you open your account until the Maturity Date. This means you'll earn one rate on your entire account balance. | | | | |
| | Interest is calculated daily and paid on the first business day of every month and on the Maturity Date. | | | | |
| | You can choose to have interest paid into a Nominated Account. This must be a NatWest personal current or savings account with instant access (other than a cash ISA) held in your name at the same branch as your Fixed Term Savings Account. | | | | |
| | If interest is paid into your Nominated Account, you can access it the following day. | | | | |
| Can NatWest change the interest rate? | No, the interest rate is fixed. This means that the rate will not change between the date you open your account and the Maturity Date. | | | | |
| What would the estimated balance be at maturity based on a range of deposits? | | Deposit at Fixed Term Start Date | Balance at Maturity Date | Interest earned | |

| £50,000 | | £50,907.81 | £907.81 | | |
