

Get to know your new Bankline

July 2021

NatWest

[natwest.com](https://www.natwest.com)

Logging in

You'll notice some changes between the original and new Bankline, so this is a handy guide on what to expect.

Just as before, what you can see and do will depend on your user privileges.

Logging in

To log in, use the usual address: www.natwest.com/bankline

You'll see the new version once you're logged in.

We haven't changed any of your user details or privileges.

Remember these points to stay safe when logging in:

- We'll NEVER ask for your full password online (we'll only ask for certain characters)
- We'll NEVER ask for your password or any smartcard codes over the phone (or any part of them)
- ALWAYS log in from www.natwest.com/bankline; watch out for impostor log in screens

Can't remember your password?

You can reset your password by selecting the "request an activation code" link on the screen where you're asked to scan a QR code.

If you can't see this link, ask your Bankline administrator(s) to reactivate your login via administration.

Dashboard

The first new thing you'll see in Bankline is the dashboard. This is the navigation hub from where you can access all areas of Bankline.

It also gives a snapshot view of your most used accounts (up to 5), handy tips to make the most of your online experience, and quick links to some of the most popular Bankline features.

You can customise the dashboard to a view that works for you. Move the panels around or even switch them off, Bankline will remember your settings when you next log in.

We'll also flag new features on the dashboard when they're released.

The screenshot shows the NatWest Bankline dashboard. At the top, there's a dark purple header with the NatWest logo, a 'Support' button, a 'Messages' dropdown, and the user's name 'Natalie West' with a dropdown menu. Below the header is a navigation bar with 'Dashboard' (selected), 'Accounts', 'Payments', 'Account Servicing', and 'Admin'. A search bar is on the right. The main content area starts with 'Welcome Natalie' and a 'Customise dashboard' link. Below that is a 'Popular shortcuts' section with buttons for 'Domestic payments', 'Payment summary', 'Accounts & statements', 'Transfers', 'International/FX', and 'Templates'. The 'Favourite accounts' section shows a table with one account: 'NatWest Account 1 ****9337' with a balance of 'GBP 0.35' and a status of 'Current uncleared'.

Tip: To log out, click your name in the top right and a drop-down menu will appear.

View your accounts and balances

New Bankline puts all your account information in one place so you can quickly find what you're looking for. You can change the order and grouping of accounts, and choose the balance types you want to see. Select the Accounts tab then 'View account balances and statements' to explore more.

View your accounts

You can see up to four balance types at any time:

Tip: 'Uncleared balance' is what used to be called 'ledger balance' in the original Bankline.

The screenshot shows the 'Accounts' page in Bankline. At the top, there are filters for 'Display currency' (GBP), 'Balance date' (07-JUL-2021), and 'Balances shown'. A 'Compact view' toggle is set to 'On'. A dropdown menu is open, showing options for balance types: 'Available funds (inc. overdrafts if app.)', 'Current uncleared', 'Current cleared', 'Start of the day uncleared', 'Start of the day cleared', 'Last night's uncleared', and 'Last night's cleared'. The 'Available funds' and 'Current cleared' options are selected. Below the menu, a table displays account balances for three accounts: NATWEST DIGITAL SRDMC (GBP 1.36), NATWEST DIGITAL SRVC (GBP 2.46), and NATWEST DIGITAL SRVC BANK (GBP 0.00). Each row shows the account name, balance, and a 'Current cleared' column with a value of GBP 1.36, GBP 2.46, and GBP 0.00 respectively. A 'Print/Export accounts' link is visible in the top right corner.

'Available funds' is a new feature that shows the amount you can spend now. This includes the money in your account plus any overdraft and uncleared (pending) payments coming in to the account, minus uncleared (pending) payments due to go out of the account.

To view 'Available funds' the feature has to be set up as one of your user privileges. Your Bankline Administrator(s) can arrange this through Administration, either by adding the new privilege to your existing Customer role or by creating a new role.

Searching your accounts and payments

We've improved our searching facility. Just click 'Search' from the top menu to look for specific statement transactions and find your historic Bankline payments.

You can easily search for payments coming in and out of your accounts by completing as many fields as appropriate and searching across all of your accounts.

A screenshot of the search interface for the "Transactions" tab. It features a "Search by" dropdown menu set to "Transaction details". Below this are fields for "Transaction description" (with a "Case sensitive" checkbox), "Amount from" and "Amount to" (both set to "Any"), "Date type" (set to "Value date"), and "Date range" (set to "Last 30 days"). There are also dropdowns for "Account entry type" (set to "Debits and Credits") and "Transaction type" (set to "Any"). At the bottom, there are radio buttons for "All accounts" (selected) and "Select accounts".

By clicking across to the 'Payments raised' tab you can complete as many or as few of the options below to find the payments that you've made in Bankline.

A screenshot of the search interface for the "Payments raised" tab. It includes a "Payment reference" dropdown (set to "Select type"), a "Payee name" text field, "Amount from" and "Amount to" (both set to "Any"), and a "Currency" dropdown (set to "GBP"). The "Date range" section has a "Date payment received" dropdown and two date pickers (set to "15-Mar-2019" and "15-Apr-2019"). There are also dropdowns for "Payment type" (set to "All") and "Payment status" (set to "All statuses"). At the bottom, there are radio buttons for "Input user" (selected) and "Authorising user", with a text field "Enter User ID here..".

Domestic payments

We've improved the way you make payments in Bankline, helping save time and money.

For a domestic payment, just enter who the payment is for, which includes a payee check. Then enter the payment amount and when it's to be made.

Bankline will calculate the cheapest way to send your payment. If you need a different payment type to the recommendation, just click Change payment type.

Once you've raised your payment, you can either approve it (subject to privileges) or go straight to raise another payment, then approve them all in one go.

[Raise another payment or transfer](#)

You can also save a domestic payment as a template, if you're likely to use the payee again.

International payments

We've redesigned international payments to help you complete the relevant fields for the country and currency you're paying. For example, if an address is mandatory for the destination country, these fields will be displayed in the Payee details section.

If your payment involves more than one currency, Bankline will show the value of the payment in both currencies and the indicative exchange rate being applied, as well as the charges and total amount to be debited. You can also add pre-booked deals easily as part of this process.

Transfers between your accounts

Transfers between your accounts are quick and easy in new Bankline, with no need to move screens for sterling or currency accounts.

Simply select the accounts you're moving money between, and if your payment involves more than one currency, Bankline will show the value of the payment in both currencies and the indicative exchange rate being applied. You can also add pre-booked deals as part of this process.

Tip: Transfers were known as 'Inter Account Transfer' (IATs) in original Bankline.

Approving payments

Start by selecting 'Approve payments' from the Payments menu.

You'll then see all payments awaiting approval, listed in date order (closest date first).

Just use the tick-boxes to select the payments you want to approve and click 'Approve'. You can then use your Smartcard and reader as normal to complete the approval process.

Templates

Templates are a great way to store details for regular payments. They save the account the payment is sent from, the payee details and payment type.

Domestic templates

Any domestic payment templates you've already created have been transferred to new Bankline, and creating new templates has also been simplified.

You can save a domestic payment as a template whilst raising it, or create it through the Templates menu, and set separate payment limits for each template.

International templates

Existing international payment templates are available to make payments from in new Bankline.

If you need to edit or create a new international template, you'll need to go to original Bankline. This functionality will be made available in new Bankline at a later stage.

The screenshot shows the 'Create a single payment template' form. At the top, there is a tip: 'Give your template a meaningful name that you will be able to find easily in the future. Along with the payment information, you can also set an optional limit.' Below this is a text input field for 'Template name' with the placeholder 'Enter template name'. The 'Select type of payment' section has two buttons: 'Domestic payment' (selected) and 'Transfer between your accounts'. The 'From' field is a dropdown menu with the placeholder 'Select the account you want to pay from'. The 'To' field is a button labeled 'Enter payee details'. There are also input fields for 'Your reference' and 'Their reference', with a note 'Extended reference' below the latter.

The screenshot shows the 'Single payment templates' list view. At the top right, there is an 'Advanced search' button and a 'Create single payment template' button. Below this is a summary: 'Make repeat payments faster with payment templates. A single payment template stores a payee's details and payment information.' The table has columns for 'Template status', 'Template type', 'Payee name', 'Type', and 'Last completed payment'. The first row is: 'Active', 'RBS CHAPS PAYMENT', 'RBS DIGITAL SERVICES BANKLINE', 'Domestic CHAPS', '28-MAR-2019'. Below the table, there is a detailed view for the selected template. It shows 'From' and 'To' details, 'Payment limit' (GBP 2.00), 'If above limit', 'Error', 'Event history (2)', 'Payments raised (1)', and 'Date raised' (01-Mar-2019 at 16:02) with 'Payment reference' (53277680). At the bottom, there are buttons for 'Make payment', 'Edit', 'Clone', 'Suspend', and 'Delete'.

Print and Export

Statements and balances:

You can print or export your statements using the Print/Export link on the Statement page. This lets you create a download in either PDF or CSV. If you need a different format, you'll still be able to do this in original Bankline.

PDF exports are available in landscape or portrait and can be arranged in your preferred order.

You can print or export Balances from the View account balances page. This is also available in PDF or CSV.

Payments:

Once you've raised a payment, you can print or export it from the Payments to be approved page, or from the Approve payments screen. You can print single or multiple payments, before or after approval.

You can also print payments created from Templates by clicking the Payment reference in the expanded template.

Account servicing

Account servicing lets you complete everyday banking tasks online, without having to pick up the phone or send off forms.

From the account servicing page in Bankline you can:

- Stop cheques
- Open additional accounts
- Change address
- Close accounts
- Order stationery (eg. cheque books)
- Order foreign currency
- Track the progress of all your requests

[Find out more about account servicing](#)

To get started, you'll just need to set up the privileges in Bankline. If you're an administrator, visit the page below for guidance on how to do this for yourself and other users.

Other tasks

This guide is intended to demonstrate the new features and improved experiences for users new Bankline brings. Not all areas have been redeveloped, and you'll see the 'old' style screens for some journeys for a little while yet. These include:

- Importing payments
- Bulk lists
- Admin
- Payment summary

You can still access these directly from the dashboard, and if you need to return to original Bankline for anything else this is still available under 'Other tasks' on the right hand side of the screen.

Help and support

FAQs

These are available from every Bankline page, just click '[Support](#)' and enter your search terms.

Webchat

The quickest way to get in touch with us is via webchat. You'll find the [Chat now](#) button on every Bankline page.

Cora, our digital assistant, will help with your question and connect you to the right team, when needed.

Webinars

If you'd like a bit more help getting comfortable with new Bankline, sign up to one of our [live webinars](#) to learn your way around with one of our expert trainers.

Bankline helpdesk

Our Bankline helpdesk is here to help with more complex Bankline queries on:

0345 300 4108

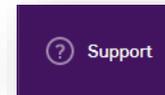

+44 1268 502 128 (outside the UK)

18001 0345 300 4108 Relay UK

Lines are open Monday to Friday, 8am to 6pm. Calls may be recorded.

We'd love to know what you think

If you have any comments about new Bankline we'd be interested to hear them. Send your feedback to banklinefeedback@natwest.com
