

## Student budget calculator

Managing your money can seem a daunting prospect when you are a student. We've designed this student budget form to help you plan your finances and make sure you have enough money to last the academic year.

Simply complete the boxes below as far as possible. Then take the total expenses figure away from your total income figure to see how much money you have left.

Once you are clear on what your needs are why not visit our website [www.natwest.com/students](http://www.natwest.com/students) to see what we can offer you and to open your student account.

### **Your Money**

Please input the total amount of money you have for the year under these headings.

Student Loan	£
Savings	£
Other income (e.g. family contributions, scholarships etc.)	£

For your calculation we will assume that the total figure above is spread evenly across the year. Please add any additional monthly income such as a part-time job - in the box below.

Additional monthly income	£
---------------------------	---

<b>Total income (total of all boxes above)</b>	<b>£</b>
--	----------

### **Your Expenses**
